

## UK UNSIGNED Launches New Production Label

After setting up the original UK UNSIGNED in 1999, we have now grown into an independent broadcast network that promotes unsigned artists around the country. This is through media (see [www.mtmbroadcasting.co.uk](http://www.mtmbroadcasting.co.uk)), training ([www.ukunsignededucation.org](http://www.ukunsignededucation.org)) and business support ([www.ba.org.uk](http://www.ba.org.uk) [www.sa.org.uk](http://www.sa.org.uk)). We have now set up an independent production label, UKU Productions, which has its own fully equipped recording studio, video production unit and event management unit.

Seeing that we are fully serviced and independent we decided to create an opportunity for unsigned artists that is realistic with achievable aims for those who want to join us.

Whilst we cannot guarantee that anyone will earn millions by joining us, we can ensure that all artists, with the appropriate levels of talent and professional attitude, will be able to generate regular income streams through us. We offer a range of services and opportunities beyond what you would expect from a major label, but we do this by making sure we remain honest with the acts from the very start.

The launch takes place next Friday 25th May, 6pm at our studios at The Old Grange Museum, Neasden Roundabout, Neasden Lane, London, NW10 1QB (nearest station is Neasden, Jubilee Line, exit the station & turn left ? we are in the middle of the huge roundabout at the top of the Hill about 5
